### Wedding Programs

*Wow your guests with a truly magical first dance as husband and wife*

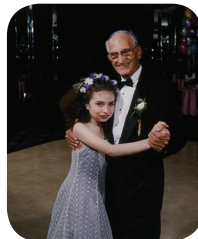

We can make you look natural and confident much faster than you think! Depending on the amount of time you are willing to devote, our professional dance instructors will work closely with you to create and develop choreographed dance tailored to your specific song or help you gracefully improvise on the dance floor. Our dance instructors can choreograph lifts and turns into your dance and make your photos and video amazing.

If you didn't already choose a song, we can help you with your selection.

### Special Occasions

Whether you like to shine for your quest alone, with your dad, mom or with a group of special friends, we will design a stunning dance routine for your special occasion.
